Certificate of Approval: APC 68/13  
E. I. duPont - Newport  
Sanitary Landfill

Mr. E. L. Rodowskas  
E. I. duPont de Nemours & Co., Inc.  
Newport Delaware

Dear Mr. Rodowskas:

Pursuant to the provisions of Section 6203, Chapter 442, Volume 55, Laws of Delaware, and by approval of the Delaware Water and Air Resources Commission on July 8, 1968 permission is hereby granted for the operation of a sanitary landfill at the duPont Pigments Plant at Newport, Delaware, in accordance with plans, specifications, and engineering reports submitted in support of the application for permit. These supporting items are listed in Appendix A of this permit and are made a part hereof.

This Certificate of Approval is issued subject to the following conditions:

1. The project shall be operated in accordance with the plans described above. If changes are contemplated, revised plans must be submitted and a supplemental approval issued.
2. Representatives of the Water and Air Resources Commission may, at any reasonable time, inspect such work at any time after it has been put into operation.
3. This landfill shall be operated at all times in such a manner as to eliminate local nuisance conditions stemming from smoke or odors.
4. Waste segregation will be performed so that organic, inorganic and hazardous wastes are separated.
5. Organic or combustible waste shall be covered with a minimum of four inches of compacted fill dirt at least weekly or more often if necessary.

6. Working faces will be not more than 50 feet wide and individual lifts will not exceed 8 feet in height.

7. Final cover on individual lifts will be at least 2 feet of compacted fill material.

8. This Certificate will be revoked upon violation of any of the applicable preceding conditions.

Sincerely yours,

*J.C. Bryson*
